

OTA Feb 2013 News

Hello Shooters!

Everything is starting to wind up again for spring shooting. We still haven't been able to catch a break for the Derbies weather wise, but the practice traps and skeet fields have been busy virtually every weekend. A giant thanks to Allen Cobb for donating a huge amount of time to working on repairing the skeet fields. We have the first 2 going right now and the targets are set pretty well. There is still work to do on the 3rd field and we will do it as soon as we can get to it. OG&E has finally up graded all the electric lines in the area. They replaced insulators and transformers and upgraded the big square one on the sidewalk and increased the voltage in the whole area. Hopefully this will end any problems we had in the past.

The 4H state trapshoot has been rescheduled for April 6, a Saturday. I will also schedule a board meeting for Sunday Feb 10 after the Derby is over. We are finalizing the programs and state shoot programs and all the info will be listed on the website soon if not already. The 2 water leaks have been fixed and paid for by Gene Sears Supply co. We appreciate it. A lot of stuff is going on and in the works and I will report them as they take place.

Thanks Larry.
